## PERFORMANCE CURVE

## FEATURES and BENEFITS

### Emissions

Kubota Super Mini Series, the most compact multi-cylinder liquid cooled industrial diesel engines, complies with EPA Tier 4 emissions regulations. These are the most stringent emissions regulations in the world in this class.

Kubota engine less than 19kW meets emission standards over the NRTC and also meets the NTE requirements.

### Durable Power

The Kubota Super Mini Series has been chosen as a power source for a variety of applications since it was first launched 25 years ago. It has become the benchmark in the compact diesel engine market.

The D722 engine offers a seamless transition from Tier 2 to Tier 4 by totally maintaining the same performance and physical characteristics of the previous Tier 2 engines.

Alternative fuel engines, WG752-G (Gasoline), WG752-L (LPG) and WG752-GL (Dual Fuel:Gasoline/LPG) are available with the same footprint as the D722 engine.

### Clean and Quiet Power

Kubota's original E-TVCS (Three Vortex Combustion System) has been further improved for better emissions.
